

Flexline™

Flexline is constructed of advanced polymers, designed with rounded corners and infused with Microban antimicrobial product protection for a clean, durable solution that withstands the rigors of a healthcare environment.

Metro incorporates several elements in its product design to support a facility's infection control processes:

- Microban® antimicrobial protection helps keep products "cleaner between cleanings"
- Advanced polymer and other proprietary finishes provide corrosion resistance
- Smooth rounded corners to allow for easier cleaning

Look for the "red check" symbol for this added protection.

Standardized options. Configured by you.
